* **Important Information:** The ADHD Medication Guide only includes medications indicated by the FDA for the treatment of ADHD. The age-specific dosing information listed for each medication reflects the FDA-approved prescribing information. “SD” refers to the FDA-recommended starting dose, which sometimes varies by age. Practitioners should refer to the FDA-approved product information to learn more about each medication.

♦ **Discontinued ADHD Medications:** The following FDA-approved proprietary formulations are no longer available (though, in some cases, branded or generic equivalents are still available): Adhansia XR; Adzenys ER (liquid); Cylert (pemoline); Dexedrine Spansules (5mg, 15mg); Dexedrine tablets; DextroStat tablets; Evekeo ODT tablets; LiquADD solution; Metadate CD capsules; Metadate ER tablet (10mg); Methylin Chewable tablets; Ritalin LA capsule (50mg); Ritalin SR tablets (20mg), Strattera.

** **Disclaimer:** The ADHD Medication Guide was created by Dr. Andrew Adesman of Northwell Health, Inc. Northwell Health is not affiliated with the owner nor is it an owner of any of the medications or brands referenced in this Guide. No endorsement or affiliation exists between Northwell Heath and the owner of the medications or brands. The ADHD Medication Guide is a visual aid for professionals caring for individuals with ADHD. In clinical practice, this guide may be used to assist patients in identifying medications previously tried, and may allow clinicians to identify ADHD medication options for the future. Although every effort has been made to depict the true size and color of each medication depicted, we cannot guarantee there are not minor distortions. This Guide should not be used as an exclusive basis for decision-making. The user understands and accepts that if Northwell Health were to accept the risk of harm to the user from use of this Guide, it would not be able to make the Guide available because the cost to cover the risk of harm to all users would be too great. Thus, use of this ADHD Medication Guide is strictly voluntary and at the user’s sole risk.
